

Assembled Flatbed Dolly

When you move heavy objects, a great tool can help you transport them effortlessly and efficiently. Our Assembled Flatbed Dolly can be used as single dolly to move plant pot or build up four dollies to carry bigger items. Besides, each flatbed has two casters with brake to safely lock its position. Hollow holes on the surface allow to drain water and to attach strap for pulling.

Features:

- UV resistant additive
- Helps to move heavy objects
- Casters with brake to lock position
- Assemble dollies easily by snapping into slot
- Surface hollow holes for draining and strap attaching
- Stacked packing to save space and transportation fee
