

DETACHABLE PTFE GLIDE

Our DETACHABLE PTFE GLIDE has a replaceable cup to save your time on fixing it. The detachable glide allows you to directly take off damaged cup from the stud instead of pulling out the whole nail or screw from furniture legs. An easy-moving chair and a zero-scratches floor only take you two steps to complete.

Replaceable cup (22mm & 30 mm)	 <p>Screw-Mounting</p>	Instructions: 1. Pre-drill the bottom of chair leg 2. Fasten stud with screw onto chair leg 3. Clip on glide cup onto stud 4. Move chair smoothly without scratching floor
	 <p>Nail-in</p>	Instructions: 1. Pre-drill the bottom of chair leg 2. Use hammer to tap stud with nail onto chair leg 3. Clip on glide cup onto stud 4. Move chair smoothly without scratching floor

• Stud is suitable for both 22 mm & 30 mm cups
